THE RALEIGH AND GASTON RAIL ROAD. Every day's experience is demonstrating more fully to the State at large, the extraordinary wisdom and prescience of Governor Graham in purchasing for the State the Raleigh and Gaston Rail Road, at the snug little sum of three hundred and sixty odd thousand dollars, when it could just as easily have become the property of the State for a comparatively trifling sum. As further evidence of this wisdom of his Whig Excellency, we call the reader's attention to the article which we clip from the Raleigh Register of the 15th inst., headed "Council of State." Here, it will be seen, which would entirely stop its operations if rightly, Mr. Hollister, the Superintendent of the Road, in his report to the Legislature that next convened after his Excellency's purchase profit to the Treasury of the State of some eight or nine thousand dollars, beyond expenses for nine or ten months. This, we remarked at the time, was a statement gotten up merely to make political capital. As time progresses, the State is realizing the truth of what we then stated. The Road suffers a loss of \$25,000, and therefore must go down if sometoo, in the face of his Excellency's statement, that, at the time when this disaster occurred, insurance upon the Machine Shop? the date of the above letter, the Spanish sloop ing on the part of Captain General O'Donnell of the Intendent Pinillos, and of the General of Marine, (Admiral,) all necessary assistance, with the exception of men, besides vessels for Government of Yucatan, having accepted this generous offer, has made a requisition for 6 pieces of mountain artillery, 2,000 muskets, 200 quintals of gunpowder, 4,000 sabres, and \$200,000. All this is momentarily expected. A correspondent of the Patria, in a letter dated Vera Cruz, the 16th inst., writes: "the Spanish brig of war Nervion left this port two or three days ago, bound for Campeachy. The Captain has orders to land his crew and artillery, and hoist the Castillian flag in that city, for the protection of Spanish subjects. It is reported that 7,000 men, and several men of war, are to leave Havana for the same object.
